REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

Mayor and Council City of Seaford, Delaware

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Seaford, Delaware (the City), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Seaford, Delaware, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule – general fund, schedule of changes in net OPEB liability and related ratios, schedule of changes in the City's net pension liability and related ratios – single employer plan, schedule of City contributions – single employer plan, schedule of investment returns – single employer plan, schedule of the City's proportionate share of net pension liability – cost sharing plan, and schedule of the City's contributions to cost sharing pension plan be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The schedules of revenue and expenditures, schedules of debt service, and financial highlights are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and financial highlights are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of revenue and expenditures, schedules of debt service and financial highlights are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 8, 2020 on our consideration of the City's internal controls over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Owings Mills, MD December 8, 2020 S& + Company, If C

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Seaford's (the City) annual report presents our discussion and analysis of the City's financial performance during the fiscal year that ended on June 30, 2020. Please read it in conjunction with the City's financial statements, which begin on page 12.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis (this section), the basic financial statements, required supplementary information, and supplementary information. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the City reporting the City's operations in more detail than the government-wide financial statements.
 - Governmental funds statements tell how general government services like public safety, public works, parks and recreation, and administration were financed in the *short term* as well as what remains for future spending.
 - *Proprietary fund* statements offer *short* and *long-term* financial information about the activities which the government operates, *like businesses*, such as the water and sewer system and the electric department.
 - Fiduciary fund statements offer information about the pension funds.

The focus of government-wide financial statements is on the overall financial position and activities of the City. These financial statements are constructed around the concept of a primary government, the City.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required* supplementary information that shows a budget comparison to actual for the general fund. In addition to these required elements, we have included certain schedules that provide more detail about the City's finances.

Government-Wide Financial Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how it has changed. Net position – the difference between the City's assets and liabilities – is one way to measure the City's financial health, or position. Over time, increases or decreases in the City's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

• To assess the overall health of the City, you need to consider additional nonfinancial factors such as changes in the property tax base and the condition of the City's roads, water, and sewage plants, electrical plant, and distribution lines.

The government-wide financial statements are divided into two categories:

- Governmental activities Most of the City's basic services are included here, such as the police, fire, public works, and parks departments, and general administration. Transfers from the business-type activities, property taxes, and state and federal grants finance most of these activities.
- Business-type activities The City charges fees to customers to cover the costs of services it provides. The City's water and sewer system, electric department, and golf course are included here. The City also relies on the electrical services to provide major funding of the governmental activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds – not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

The City has three kinds of funds:

- Governmental funds Most of the City's basic services are included in governmental funds which focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them.
- Proprietary funds Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide financial statements, provide both long and short-term financial information. In fact, the City's enterprise funds are the same as its business-type activities, but provide more detail and additional information, such as cash flows.
- Fiduciary funds Pension assets for which the City is responsible for handling are in these funds and placed under its control.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net Position

The City's combined net position increased by approximately \$735,000, or 2.0% from fiscal year 2019 to 2020.

The net position of the City's governmental activities increased by approximately \$907,000, or 3.5%, for fiscal year 2020. Most of the net position is restricted as to the purposes for which they can be used, or are invested in capital assets (buildings, roads, equipment, and so on).

The net position of the City's business-type activities decreased approximately \$172,000, for the year. Subject to the annual transfer of funds to help finance the general fund activities, the City generally uses the unrestricted net position to finance the continuing operations of the water, sewer, electric, and golf operations.

The table below compares key financial information in a condensed format between the current year and the prior year.

Table 1 City of Seaford's Net Position (in thousands of dollars)

Changes in Net Position

The City's total revenues were approximately \$23,621,000. Approximately 78% of the City's revenues come from fees charged for services. Another 2% comes from capital grants and 10% from property taxes. The remaining revenues were from state grants and miscellaneous fees and taxes.

The total cost of all programs and services was approximately \$22,886,000. The City's expenses cover a range of services with about 65% related to the business activities.

Table 2 and the narrative that follows consider the operations of governmental and business-type activities separately for the years ended June 30, 2019 and 2020.

Governmental Activities

Revenues for the City's governmental activities were approximately \$5,513,000.

The property tax rate for 2020 and 2019 was 34¢/\$100 of assessed value each year.

The cost of all governmental activities this year was approximately \$8,028,000. Of this cost, the largest program for the City is the police with a cost of approximately \$3,733,000.

Business-Type Activities

Revenues of the City's business-type activities decreased about 6.2% to approximately \$18,108,000 and expenses decreased 7% to approximately \$14,858,000.

General Fund Activities

For the year ended June 30, 2020, after transfers and loan proceeds, the City had an increase approximately \$1,685,00, in its general fund balance.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were no amendments to the City's budget throughout the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2020, the City had invested approximately \$39,539,000 (net of accumulated depreciation), in a broad range of capital assets, including police equipment, buildings, park facilities, roads, vehicles, electric distribution equipment and lines, and water and sewer lines. This amount represents a net decrease (including additions and deductions) of approximately \$484,000, or about 1.2%, from last year, driven largely by depreciation and disposal of assets.

Total Liabilities, Deferred Inflows and Fund Balances	\$	5,884,996			

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position As of June 30, 2020

Total fund balances, governmental funds	\$ 4,454,572
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are therefore not reported in the fund financial statements, but are reported in the governmental activities of the Statement of Net Position.	13,524,297
Certain revenues that do not provide current financial resources are reported as deferred income in the fund financial statements, but are reported as revenue in the governmental activities of the Statement of Net Position.	185,558
Certain deferred inflows and outflows related to net pension expenses as reported in the governmental activities statement, but not in the financial statement.	623,212
Some liabilities including notes payable, capital leases payable, net pension liabilities (assets), and OPEB obligations are not due and payable in the current period and therefore are not reported in the fund financial statements,	
but are included in the governmental activities in the Statement of Net Position.	 (7,329,500)
Net position of governmental activities in the Statement of Net Position	\$ 11,458,139

Statement of Revenue, Expenditures, and Change in Fund Balance – Governmental Funds For the Year Ended June 30, 2020

	General Fund		
Revenues			
Taxes	\$	2,511,426

Proceeds from capital leases		201,448	
Proceeds from loan		690,000	
Total Other Financing Sources		4,685,845	
Net change in fund balance		1,684,924	
Fund Balance, Beginning of Year		2,769,648	
Fund Balance, End of Year	\$	4,454,572	

Reconciliation of the Statement of Revenue, Expenditures, and Change in Fund Balance – Governmental Funds to the Statement of Activities For the Year Ended June 30, 2020

Net change in fund balances, governmental funds	\$ 1,684,924
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay	
of \$1,009,831 was less than depreciation expense \$867,589 in the current period.	142,242
In the Statement of Activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund	
balances by the book value of the assets sold.	(60,229)
In the Statement of Activities, the net OPEB liability and the net pension liabilities is measured by the amount accrued during the year. In the governmental funds, however, expenditures for the OPEB and pensions are measured by the amount of financial resources used (essentially, the amounts actually paid or expected to be paid within one year).	53,996
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned: Change in deferred revenue affecting income.	(103,706)
Governmental funds report repayment of debt principal as an expenditure and loan proceeds as other financing sources. In contrast, the Statement of Activities treats such repayments and loan proceeds as a changes in long-term liabilities.	 (809,774)
Change in net position of governmental activities	\$ 907,453

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Seaford, Delaware (the City) conform to generally accepted accounting principles applicable to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing government accounting and financial reporting standards.

Deferred Inflows of Resources

The City's governmental funds and activities report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net assets that applies to a future period. The City has three types of items that qualify for reporting in this category; deferred property taxes which are not recognized in the governmental funds until available (collected not later than 60 days after the end of the City's fiscal year), deferred grant revenue which is not recognized until a future event occurs, and deferred inflows related to pension plans.

Deferred Outflows of Resources

The City reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary statements of net position or the governmental funds balance sheet. The City reports deferred outflows related to pension plans.

Pension Plans

The deferred inflows and outflows related to the Delaware County and Municipal Police/Firefighters' Pension Plan (DCMPFPP) have been determined on the same basis as they are reported by DCMPFPP.

Reporting Entity

The basic criteria for including component units in the City's financial statements is the exercise of oversight responsibility over such units by the City's elected officials. In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. Based on criteria set forth by the GASB, the City has no component units.

Basis of Presentation

Government-wide statements: The statement of net position and the statement of activities display the non-fiduciary information about the City. These statements include the financial activities of the overall government. These statements distinguish between the governmental and business-type activities of the City. Governmental activities are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Presentation (continued)

The statement of net position shows net position divided into three major categories:

- Net investment in capital assets
- Restricted
- Unrestricted

Restricted assets represent those assets which have constraints placed on their expenditure either externally imposed or imposed by law or enabling legislation. When expenditures are incurred for purposes for which both restricted and unrestricted net positions are available, the City's policy is to use the unrestricted net position first.

The statement of activities presents a comparison between direct expenses and revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund financial statements: The fund financial statements provide information about the City's funds. Separate statements for each fund category - governmental, fiduciary, and proprietary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Any remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as grants and investment earnings, result from non-exchange transactions.

The City reports the following major governmental fund: general fund. This is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The City reports the following major enterprise funds: electric, sewer, water, and golf. These funds account for the operation and management of the electric, sewer, water, and golf course departments.

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Presentation (continued)

Fiduciary funds are used to account for resources held for the benefit of parties outside the government.

Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

- Nonspendable fund balance—amounts that cannot be spent because they are either not in a spendable form (such as inventories and prepaid amounts) or are legally or contractually required to be maintained intact.
- Restricted fund balance—amounts that can be spent only for specific purposes because
 of the City Charter, state or federal laws, or externally imposed conditions by grantors
 or creditors.
- Committed fund balance—amounts that can be spent only for specific purposes determined by a formal action of the City Council ordinance or resolution.
- Assigned fund balance—amounts that are designated by the Mayor and Council for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval by the City Council.
- Unassigned fund balance—all amounts not included in other spendable classifications.

In governmental funds, the City's policy is to first apply the expenditure toward restricted fund balances and then to other, less restrictive classifications (committed and then assigned fund balances) before using unassigned fund balances.

Measurement Focus, Basis of Accounting

The government-wide, fiduciary fund, and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all the eligibility requirements have been satisfied.

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus, Basis of Accounting (continued)

The governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Property taxes, charges for services, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt, acquisitions under capital leases, and capital contributions are reported as other financing sources.

As a general rule, the effect of interfund activity has been eliminated from both the government-wide and fund financial statements, but interfund services provided and used are not eliminated in the process of consolidation.

Budgetary Data

Budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds. An annual appropriated budget is adopted for the General Fund and the Proprietary Funds. Budget amendments must be approved by the City Council.

Cash Equivalents

For purposes of the statement of cash flows, the Enterprise Funds consider all highly liquid debt instruments to be cash equivalents.

Restricted Cash

Restricted cash in the General Fund and restricted net position in the Government-Wide Statement of Net Position consists of various accounts, the proceeds of which are from the State or other parties and the expenditures of which are limited to certain guidelines. Included in the restricted cash and restricted net position is \$540,299 that the Council has designated as Fire Equipment Reserve.

Allowance for Doubtful Accounts

The City utilizes the allowance method for recognizing bad debt expense for receivables other than taxes, water, and sewer. The amount of the allowance is determined by a review of receivables and prior years' experience. As of June 30, 2020, the allowance account in the General Fund was \$324,505 and the Electric Fund was \$74,548.

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost or market. Cost is determined by the first-in, first-out method.

Deferred Inflow of Resources/Revenue

Deferred revenue represents income received but not earned at year end. In addition, the City reports deferred revenue in the General Fund when a revenue does not meet both the "measurable" and the "available" criteria for recognition in the current period. For the governmental funds statements, property taxes not collected within sixty days following the end of the year are considered not available to pay liabilities that are owed at the balance sheet date and therefore are reported as deferred revenue.

Property Taxes

Property taxes are levied on July 1 and are payable by September 1. A 1% penalty plus 0.5% simple interest per month accrue on unpaid property taxes beginning September 1. All taxes attach as an enforceable lien on the property as of July 1. The City provides tax exemptions for qualifying senior citizens. The City bills and collects its own property taxes.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of donation. General infrastructure assets acquired prior to July 1, 2002, are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Infrastructure	20 - 50
Buildings and improvements	20 - 40
Machinery and equipment	5 - 10
Transportation equipment	5 - 15

Notes to the Financial Statements For the Year Ended June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Pronouncements

As of the year ended June 30, 2020, GASB has issued Statement No. 84 Fiduciary Activities; Statement No. 87, Leases; Statement No. 90, Majority Equity Interests-an amendment of GASB Statements No. 14 and No. 61; Statement No. 91, Conduit Debt Obligations; Statement No. 92, Omnibus 2020; Statement No. 93, Replacement of Interbank Offered Rates; Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements; Statement No. 96, Subscription-Based Information Technology Arrangements, and Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—a amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. During the year ended June 30, 2020, GASB has also issued GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, which provides temporary relief to governments in light of the COVID-19 pandemic, by postponing the effective dates of certain pronouncements. These statements may or will have a material effect on the City's financial statements once implemented. The City has not yet completed the process of evaluating the impact of these pronouncements on its financial statements and plans to adopt them, as applicable, by their effective date.

2. CASH - OTHER THAN PENSION PLAN

As of June 30, 2020, the carrying amount of the City's cash deposits was \$12,616,995, and the bank balance was \$12,708,585. Of the bank balance, \$500,000 was covered by federal depository insurance, \$11,707,789, was collateralized by a tri-party collateral agreement with the Bank of New York Mellon, and M&T Bank with \$2,907,789 in securities but not in the City's name and a \$8,800,000 letter of credit. The total uncollateralized bank balance was \$408,206.

3. INVESTMENTS - PENSION PLAN

All assets of the Pension Plan are invested in various open and closed-end mutual funds and further identified on the Statement of Fiduciary Net Position and reported at fair value based on current share price. Assets of the Pension Plan are not covered by FDIC insurance.

All assets of the Pension Plan are invested in various open and closed-end mutual funds and further identified on the Statement of Fiduciary Net Position. Assets of the Pension Plan are not covered by FDIC insurance.

Notes to the Financial Statements For the Year Ended June 30, 2020

3. INVESTMENTS - PENSION PLAN (continued)

Investments are recorded at fair value based on current share price as of June 30, 2020, and consisted of the following:

Mutual Funds	
Fixed Income	
Taxable	\$ 2,623,332
Closed-end	636,255
Equity	
Close-end equity	5,446,394
International closed-end	 2,595,523
Total Market Value	\$ 11,301,504

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The City has the following recurring fair value measurements as of June 30, 2020:

Mutual funds, both fixed income and equity, are classified in Level 1 of the fair value hierarchy and are valued using prices quoted in active markets for those investments.

Investments By Fair Value Level	6/30/2020	A	oted Prices in etive Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significar Unobserva Inputs (Level 3	ble
Mutual Funds						
Fixed Income						
Taxable	\$ 2,623,332	\$	2,623,332	\$ -	\$	-
Closed-end	636,255		636,255	-		-
Equity						
Close-end equity	5,446,394		5,446,394	-		-
International closed-end	2,595,523		2,595,523	-		
Total Investments	\$ 11,301,504	\$	11,301,504	\$ -	\$	_

The City discloses investment risks as follows:

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Notes to the Financial Statements For the Year Ended June 30, 2020

3. INVESTMENTS - PENSION PLAN (continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government and are held by either (a) the counterparty, or (b) the counterparty's trust department or agent but not in the government's name.

4. CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2020 was as follows:

Golf Course and Country Club

In June 2010, the City purchased the golf course, club house, tennis court, equipment and pool from the Seaford Golf and Country Club for an agreed-upon price of \$1,400,000.

Also in June 2010, the City entered into an agreement to sell the improvements known as the Club House to the Nanticoke Senior Center, Inc. at an agreed-upon price of \$624,000. The agreement included a 99-year lease of the land under the Club House with rent prepaid.

The remaining property of the golf course of \$776,000 is included in the proprietary golf fund and the remaining debt has zero balance due.

7. RETIREMENT AND PENSION PLANS

City of Seaford Pension Plan and Trusts

Plan Description and Provisions

The City contributed to two separate defined benefit pension plans; the City of Seaford, Delaware Pension Plan, and Trust (General Plan) and the Delaware County Municipal Police/Firefighters' Pension Plan, which together covers substantially all full-time employees.

The General Plan

The General Plan was created by a formal resolution of the Mayor and Council of the City of Seaford and is a single employer plan.

The plan administrator for the General Plan is the City of Seaford Retirement Plan Committee comprised of various City employees. The General Plan does not issue separate financial statements.

Notes to the Financial Statements For the Year Ended June 30, 2020

7. RETIREMENT AND PENSION PLANS (continued)

The General Plan (continued)

Employee contributions for the general employees are both voluntary and effective July 1, 2014 and require a mandatory participant contribution of 1% increasing 1% a year to 5% ending on July 1, 2018. Contributions by the City are recommended by the employee benefit plan consultants and actuaries who do a review and actuarial valuation of the plan annually.

The General Plan provides normal retirement benefits only based on length of service and average monthly compensation. Normal retirement is the earlier of (1) the later of the participant reaching age 65 or the fifth anniversary of participation in the plan, or (2) the later of age 62 and the twenty-fifth anniversary of date of hire. The General Plan provides early retirement benefits for participants that have reached age 55 and completed at least 10 years of service. Participants are 100% vested after 10 years of service.

Investments

The investment policy is established by the Retirement Plan Committee. The policy of the Committee is to pursue an investment strategy that reduces risk through the prudent diversifications of assets. With the exception of cash, the Committee requires a diversification of investments in mutual funds only, which are reported at fair value which is quoted market price. The following is the asset allocation as of June 30, 2020:

Asset Class	Allocation
Fixed Income	35% - 70%
Domestic Equity	10% - 55%
International Equity	3% - 30%
Cash	0% - 10%

The approximate annual money-weighted rate of return on pension plan investments for the year ended June 30, 2020, net of pension plan investment expense was 7%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Notes to the Financial Statements For the Year Ended June 30, 2020

7. **RETIREMENT AND PENSION PLANS** (continued)

The General Plan (continued)

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the General Plan

For the year ended June 30, 2020, the City recognized pension expense of \$466,942. As of June 30, 2020, the City reported deferred outflows of resources or deferred inflows of resources related to pensions from the following sources:

	Deferred of Re	Deferred Inflows of Resources		
Liability experience gain	\$	-	\$	516,038
Asset experience loss		289,368		-
Assumption change		243,252		-
	\$	532,620	\$	516,038

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized over six years and recognized in pension expense as follows:

		Deferred flows of			
Years Ending June 30	Resources				
2021	\$	(88,775)			
2022		19,397			
2023		48,738			
2024		10,358			
2025		3,781			
2026		23,083			
Total	\$	16,582

percentage of the total pension liability

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the General Plan (continued)

Changes in net pension liability for the year ended June 30, 2020, were as follows:

	Beginning	Incurrence	Daguages	Ending			
Net Pension Liability	Balance \$ 4,526,719	\$ 2,167,537	Decreases \$ 1,592,559	Balance \$ 5,101,697			
The components of the net pension liability of the City as of June 30, 2020 were as follows:							
Total pension liability			\$	15,379,051			
Plan fiduciary net positi	on			11,885,615			

Less employee voluntary	
accounts	 1,608,261
Adjusted plan fiduciary net position	 10,277,354
Net pension liability	\$ 5,101,697
Plan fiduciary net position adjusted as a	

The amount shown above as the "total pension liability" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effect of projected salary increases, estimated to be payable in the future as a result of employee service to date. This measure is the actuarial accrued liability under the entry age normal actuarial cost method determined by an actuarial valuation as of June 30, 2020 on a roll forward of the liabilities from the June 30, 2019 valuation. Significant actuarial assumptions used in determining the pension benefit obligation include the Pub-2010 Amount Weighted General Mortality table, an assumed rate of return of 7.0%, and salary increases of 4% per year.

66.83%

The long-term expected rate of return on General Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Notes to the Financial Statements For the Year Ended June 30, 2020

7. **RETIREMENT AND PENSION PLANS** (continued)

The General Plan (continued)

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the General Plan (continued)

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the General Plan's target asset allocation as of June 30, 2020 are summarized in the following table (note that the rates shown below include the inflation component):

Asset Class	Long-Term Expected Rate of Return
Domestic equity	12.43%
International equity	11.85%
Fixed income	5.33%
Real estate	8.05%
Commodities	8.36%
Cash	3.81%

Discount rate – The discount rate used to measure the total pension liability was the long-term expected rate-of-return assumption of 7.00%. The projection of cash flows used to determine the discount rate assumes that the City will continue to follow the current funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability and no municipal bond rate was utilized.

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the General Plan's net pension liability would be if it were calculated using a discount rate that is 1- percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	Current Discount						
	1% Decrease		Rate		1% Increase		
		(6.00%)		(7.00%)		(8.00%)	
Net Pension Liability	\$	7,129,289	\$	5,101,697	\$	3,401,710	

Notes to the Financial Statements For the Year Ended June 30, 2020

Total number of participants	114

Delaware County and Municipal Police/Firefighters' Pension Plan

Plan Description

The County and Municipal Police and Firefighters' Pension Plan (the Plan) is a cost sharing multiple-employer defined-benefit pension plan established in the Delaware Code.

The General Assembly is responsible for setting benefits and contributions and amending plan provisions; administrative rules and regulations are adopted and maintained by the Board of Pension Trustees (the Board).

The management of the Plan is the responsibility of the Board. The Board is comprised of five members appointed by the Governor and confirmed by the State Senate, plus two ex officio members. The daily operation is the responsibility of the Office of Pensions.

Although most of the assets of the Plan are commingled with other plans for investment purposes, the Plan's assets may be used for the payment of benefits to the members of the Plan in accordance with the terms of the Plan.

The following are brief descriptions of the Plan in effect as of June 30, 2018. For a more complete description, please refer to the DPERS CAFR.

Separately issued financial statements for DPERS are available from the pension office at:

McArdle Building, Suite 1 860 Silver Lake Blvd Dover, DE 19904

Notes to the Financial Statements For the Year Ended June 30, 2020

7. RETIREMENT AND PENSION PLANS (continued)

Delaware County and Municipal Police/Firefighters' Pension Plan (continued)

Plan Benefits

Eligibility

The Plan covers police officers and firefighters employed by a county or municipality of the state that have joined the Plan.

Service Benefits

2.5% of final average monthly compensation multiplied by years of credited service up to 20 years, plus 3.5% of final average monthly compensation multiplied by years of service in excess of 20 years. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

Vesting

Five years of credited service.

Retirement

Age 62 with 5 years of service; age plus credited service (but not less than 10 years) equals 75; or 20 years of credited service.

Disability Benefits:

Duty – Total Disability – 75% of final average compensation plus 10% for each dependent not to exceed 25% for all dependents.

Duty – Partial Disability – Calculated the same as service benefits, subjects to minimum 50% of final average compensation.

Non-Duty – Same as service benefits, total disability subject to a minimum 50% of final average monthly compensation plus 5% of each dependent not to exceed 20% for all dependents. Partial disability to a minimum of 30% of final average monthly compensation.

Survivor Benefits

If employee is receiving a pension, then eligible survivor receives 50% of pension; if employee is active, eligible survivor receives 50% of pension the employee would have received at age 62. If the member is killed in the line of duty, the eligible survivor receives 75% of the members' compensation.

Notes to the Financial Statements For the Year Ended June 30, 2020

7. RETIREMENT AND PENSION PLANS (continued)

Delaware County and Municipal Police/Firefighters' Pension Plan (continued)

Plan Benefits (continued)

Contributions

Employer

Determined by Board of Pension Trustees, employer contributions were 16.6% and 16.8% of earnings for the fiscal year 2020 and 2019, respectively.

Member

7% of compensation.

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the Plan

As of June 30, 2020, the City reported a liability of \$533,178 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018, and update procedures were used to roll forward the total pension liability to June 30, 2019. The City's proportion of the net pension liability was based on the percentage of actual employee contributions. As of June 30, 2019, the City's proportion was 1.8563 percent, which was a decrease of 0.08 from its proportion measured as of June 30, 2018.

Changes in net pension liability for the year ended June 30, 2020, were as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Net Pension Liability	\$ 445,931	\$ 360,958	\$ 273,711	\$ 533,178

For the year ended June 30, 2020, the City recognized pension expense of \$352,429.

Notes to the Financial Statements For the Year Ended June 30, 2020

7. RETIREMENT AND PENSION PLANS (continued)

Delaware County and Municipal Police/Firefighters' Pension Plan (continued)

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the Plan (continued)

As of June 30, 2020, the City reported deferred outflows of resources or deferred inflows of resources related to pensions from the following sources:

	Out	ferred flows of ources	Deferred Inflows of Resources		
Change to proportion	\$	-	\$	12,974	
Differences between expected and actual experience		221,718		-	
Changes of assumptions		71,168		-	
Projected and actual plan investment earnings difference		-		50,459	
Contributions subsequent to measurement date		206,091		-	
	\$	498,977	\$	63,433	

The City's contribution subsequent to the measurement date of \$206,091, reported as deferred outflows of resources, will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized over six years and recognized in pension expense as follows:

Years Ending June 30	_	
2020	\$	(56,584)
2021		12,234
2022		(19,266)
2023		(50,967)
2024		(27,656)
Thereafter		(87,214)
Total	\$	(229,453)

Notes to the Financial Statements For the Year Ended June 30, 2020

7. **RETIREMENT AND PENSION PLANS** (continued)

Delaware County and Municipal Police/Firefighters' Pension Plan (continued)

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the Plan (continued)

Actuarial Assumptions

The collective total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of June 30, 2018, and update procedures were used to roll forward the total pension liability to June 30, 2019. These actuarial valuations used the following actuarial assumptions:

The total pension liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, and employee demographic behavior in future years.

Investment rate of return 7.0% Projected salary increases 2.5% + Merit

Mortality rates were based on the RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis.

The long-term expected rate of return on pension plan investments was determined using a build-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rate of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the system's current and expected asset allocation are summarized in the following table:

Notes to the Financial Statements For the Year Ended June 30, 2020

7. **RETIREMENT AND PENSION PLANS** (continued)

Delaware County and Municipal Police/Firefighters' Pension Plan (continued)

Pension Liabilities, Pension Expense and Deferred Outflow of Resources and Deferred Inflow of Resources Related to the Plan (continued)

Actuarial Assumptions (continued)

Long-Term	
Expected Rate of	

Asset Class	Return	Asset Allocation
Domestic equity	5.7%	29.5%
International equity	5.7%	13.5%
Fixed income	2.0%	27.1%
Alternative investments	7.8%	22.4%

Discount rate: The discount rate for all plans used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at rates determined by the Board of Pension Trustees, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investment was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate: The following presents the collective net pension liability (assets) of the Plan, calculated using the discount rate of 7.0%, as well as what the Plan's net pension liability (assets) would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

1%	<u>Decrease</u>	Curre	ent Discount Rate	<u> 1%</u>	<u>6 Increase</u>
\$	1,751,475	\$	533,178	\$	(460,567)

Pension Plan Fiduciary Net Position

Detailed information about the Pension Plan's fiduciary net position is available in the separately issued DPERS financial report.

Notes to the Financial Statements For the Year Ended June 30, 2020

8. OTHER POST-EMPLOYMENT BENEFITS

As directed and approved by the Mayor and Council, the City currently provides additional post-employment benefits for health and life insurance for retired employees at age 65 who have retired under the above-mentioned pension plans. The current benefit for those who elect is 50% of the cost of the supplemental health insurance premium and 100% of the cost of the life insurance premium. The benefit is funded on a pay-as-you-go plan. Currently, the City has not set up a separate trust for the OPEB Plan. The City has the following participation in the OPEB plan as of June 30, 2020:

Active eligible	84
Retired	31
Total number of participants	115

Summary of Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on a substantive plan as understood by the employer and the plan members and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point, and any known changes in the plan going forward. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in the actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant valuations methods and assumptions are as follows:

Valuation date July 1, 2019
Actuarial cost method Entry age normal
Actuarial assumptions:

Discount rate 2.79%
Salary increases 4.00%

Healthcare cost trend 7.5% decreasing to 4.5%

Mortality

General Employees - PubG-2010 Headcount

Weighted General mortality table with the Buck
modified MP 2019 improvement scale
Police - General Employees - PubG-2010

Headcount Weighted Safety mortality table
with the Buck modified MP 2019 improvement

scale

Discount rate:

The discount rate used to measure the total OPEB liability was 2.66%. Since there is no trust currently in place, there are no assets to considered when determining the discount rate associated with the OPEB plan. As a result, a long term expected investment rate of return was not applied to all periods of project benefit payments to determine the total OPEB liability.

Notes to the Financial Statements For the Year Ended June 30, 2020

8. OTHER POST-EMPLOYMENT BENEFITS (continued)

Sensitivity to change in the discount rate and medical cost trend rates:

The following presents the OPEB liability of the City, as well as what the City's OPEB liability would be if it were calculated using rates that is 1 percentage point lower and higher than the current rate as follows:

			Curi	ent Discount		
	1%	1% Decrease Rate			1% Increase	
Net OPEB Liability	\$	5,774,107	\$	4,689,561	\$	3,859,114
			Cui	rrent Trend		
	1%	6 Decrease		Rate	1%	6 Increase
Net OPEB Liability	\$	4,243,289	\$	4,689,561	\$	5,298,310

As of June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	-	\$	262,587
Changes in assumptions or other inputs		439,429		
	\$	439,429	\$	262,587

Amounts reported as deferred outflows of resources and deferred inflows of resources will be amortized over approximately nine years and recognized in OPEB expense as follows:

Years Ending June 30	
2021	\$ 23,902
2022	23,902
2023	23,902
2024	23,902
2025	23,902
Thereafter	57,332
Total	\$ 176,842

Notes to the Financial Statements For the Year Ended June 30, 2020

9. RELATED PARTY – THE DELAWARE MUNICIPAL ELECTRIC CORPORATION, INC.

On August 10, 2010, the City entered into a new power sales contract with DEMEC for the development, engineering, design, and installation of a second generator at DEMEC's existing power generation station in Smyrna, Delaware (Beasley #2 which was fully operational on June 1, 2012), for the generation of up to 67mw of capacity. As in the previous power sales agreement, the City is entitled to purchase 8.4% of all power generated and agrees to pay its share of the annual operating cost of the project including debt financing on a monthly basis. In its issued financial statements for the year ended December 31, 2018, DEMEC's total bonded debt was \$50,737,647.

In March 2012, the City approved a supplement to the full requirement service contract with DEMEC. DEMEC became a member of American Municipal Power, Inc. (AMP) and purchased the right to approximately 13.69% of the electric capacity available from the AMP Fremont Energy Center (AFEC). The supplement includes provisions relating to the AFEC Power Sales Contract with DEMEC which requires members (Seaford) in addition to receiving and paying for power from AFEC through DEMEC to also share in the operating costs of the project including debt financing. The City's portion of DEMEC's AFEC share is 9.7%.

All of the shared cost of the above three projects is included in the cost of Purchased Power.

Distribution of net income by DEMEC to its members is included as a reduction of the cost of purchased power.

On May 9, 2012, DEMEC, on behalf of its nine municipal members, entered into a memorandum of understanding with the Governor of Delaware in which members (Seaford), in order to create economic opportunity for all, agreed to:

- 1) Reduce retail electric rates by not less than an average of ten percent (10%) prior to the conclusion of the three year period commencing January 1, 2012. On June 12, 2012, Council lowered its electric rates 6.8% effective July 1, 2012 and 4.4% effective April 1, 2013.
- 2) Maintain for a five year period commencing with their 2012 fiscal year (Seaford June 30, 2012) a limit on the transfer of revenues from its electric utility into its general fund equal to the actual dollar transfer in fiscal year 2012 (Seaford \$3,750,000) (subject to a determination of need prior to the start of the fiscal year 2015).

The City Manager serves on the Board of Directors of DEMEC.

Notes to the Financial Statements For the Year Ended June 30, 2020

10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The City maintains commercial insurance covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this coverage in any of the past four fiscal years.

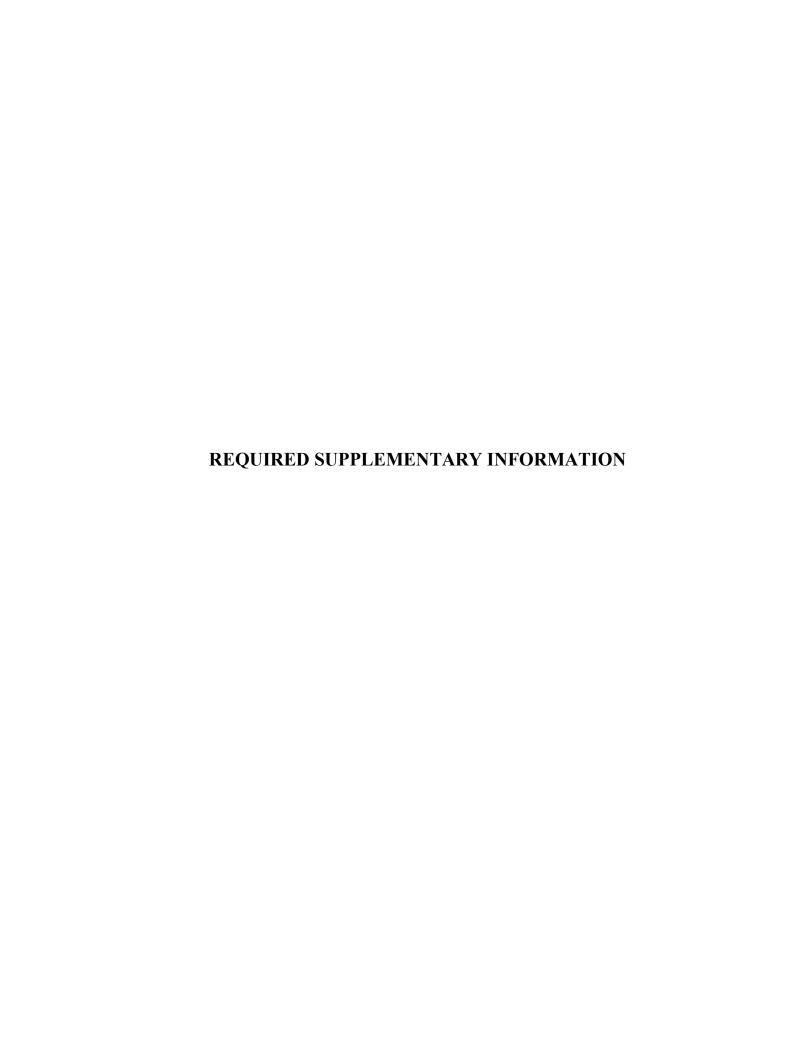

The City participates in a "minimum premium plan" for its employee healthcare insurance. Under this plan, the City, who uses a third-party administrator to process and pay claims, is responsible for paying all claims up to agreed-upon aggregate level with an insurance program responsible for the excess. The City has obtained a stop loss insurance policy of \$70,000 per participant to limit its healthcare costs. The City has been provided by the third-party administrator an estimated accrual for claims incurred, but not reported in the amount of \$50,279 of June 30, 2020.

11. COMMITMENTS AND CONTINGENT LIABILITIES

The City is the recipient of various federal and state grants. The City may be under obligation to repay these grant funds if, upon final review by the respective granting agencies, the funds expended did not meet the established program objectives. As of June 30, 2020, the City is not aware of any repayment requests.

In July 2015, the Council approved an agreement with Adkins Management Company for the City operation of the golf course for the period July 1, 2016 to June 30, 2018.

For the year ended June 30, 2020, the agreement is an operating lease in which both parties will share revenue and expenses on an agreed-upon basis. For the second and third years, if both parties agree to a changeover to a management fee arrangement, the City will compensate the Adkins Management Company an annual fee of \$711,976.

BUDGETARY COMPARISON SCHEDULE - GENERAL FUND For the Year Ended June 30, 2020

Notes to Schedule

Methods and assumptions used to determine contribution rates:

Amortization method Level dollar, open

Remaining amortization period 30 years

Asset valuation method Market value

Inflation N/A

Salary increases 4% per annum

Investment rate of return 7%, net of pension plan investment expense

Retirement age An age-related assumption is used for participants not yet receiving payment

Participants are assumed to retire between age 55 and age 67

Mortality The RP-2014 Mortality Table

Effective July 1, 2000, benefits for current retirees were increased 1% for each full year of retirement to a maximum of 5% The plan was amended March 1, 2007 to provide a one-time cost of living adjustment (COLA) to certain retirees

Effective December 1, 2008, the Plan was amended to accept into the Plan the retired and terminated police officers who were not eligible to go into Delaware County Municipal Police/Firefighters' Pension Plan and amended also to chang calculating and retaining their current benefits. The plan was also amended to eliminate the supplemental medical annuity, and to provide an additional benefit to participants with over 25 years of service at retirement

In June 2013, the Plan was amended effective July 1, 2013 requiring a Mandatory Participant Contribution of 1% increasing 1% a year to 5% as of July 1, 2017 and thereafter The Mandatory Participant Contribution will be pursuant to th Internal Revenue Code Section 414(h)(2) and therefore, although withheld from Employee Compensation, will be treated as a City contribution for federal income tax purposes

The amendment also adjusted the voluntary contributions effective July 1, 2013 to at least 1% a year to 5% July 1, 2017 and added a new section to the Plan related to the refunds of Mandatory Participation Contribution refunds

REPORT ON INTERNAL CONTROLS OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Mayor and Council City of Seaford, Delaware

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Seaford (the City) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 8, 2020.

Internal Controls over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal controls. Accordingly, we do not express an opinion on the effectiveness of the City's internal controls.

A deficiency in internal controls exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal controls, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal controls that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal controls over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal controls over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal controls over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal controls and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal controls or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal controls and compliance. Accordingly, this communication is not suitable for any other purpose.

SB & Company, If C

December 8, 2020 Owings Mills, Maryland
